

SOAR

Community-Based | Assertive Community Treatment (ACT)

At Sacramento Outreach Adult Recovery (SOAR), you have the opportunity to connect with a group of people who are here to be your support team. We believe that recovery is a deeply personal experience and will do whatever it takes to support your journey.

What to Expect

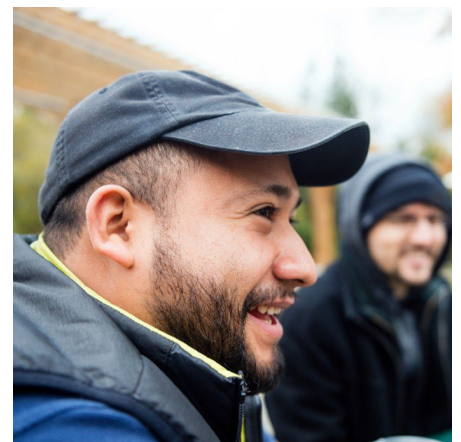

Our multidisciplinary team includes psychiatrists, nurses, masters-level clinical staff, case managers, and peer specialists who promote a program culture where resilience and hope can flourish, and losses can be recovered.

At SOAR, we will provide or assist you with linkage to a full range of services, including medical and psychiatric services, safe and affordable housing, assistance with entitlements, support and education for family and significant others, and connection with community resources. We celebrate milestones in our members' recovery journey by hosting a variety of events including barbecues, luncheons, and graduation ceremonies.

When you work with us, you can expect the following:

- **Our staff** are passionate, resourceful, and motivated. They are your partners in recovery.
- **Our culture** is based on respect and non-judgment, and we celebrate individual uniqueness. We care about the interpersonal relationships we develop so we can maintain a supportive program setting.
- **Our goal** is to be a place where recovery can thrive, and you feel empowered to create the life you want for yourself.

At Telecare, our mission is to deliver excellent and effective behavioral health services that engage individuals with complex needs in recovering their health, hopes, and dreams.
