

Western Riverside MHUC CSU

Mental Health Urgent Care (MHUC) Crisis Stabilization Unit (CSU)

At Western Riverside Crisis Stabilization Unit (CSU), we are here to help you find relief from distress and assist you in maintaining stability in your life.

We believe recovery starts from within and our job is to do whatever it takes to help you cope with crisis and gain skills to deal with your challenges more effectively. We have a multidisciplinary team of clinicians, psychiatric prescribers, nursing staff, and peer specialists who are all here to help you on your path.

Our services emphasize choice-making skills and harm-reduction techniques. We provide a safe, respectful environment where you can receive immediate, individualized assistance and a compassionate presence to stabilize symptoms, avoid the need for higher levels of care, and receive appropriate referrals to community-based resources.

What to Expect

Your recovery plan starts with you. Upon arrival, a diverse clinical team will provide an individualized assessment and work with you every step of the way to resolve your current crisis in ways that support your goals in life.

Our culture is based on recovery. We believe in respect and non-judgment, and we celebrate individual uniqueness. We care about the interpersonal relationships we develop so we can foster a supportive program setting.

Our staff are passionate, resourceful, and motivated. They are your partners in recovery.

Our goal is to be a place that helps you thrive, despite any challenges you might face along the way. We want you to be the leader of your recovery journey, and to create the life you want for yourself.

“The goal of recovery is not to become normal. The goal is to embrace the human vocation of becoming more deeply, more fully human.”
